

Why Choose **B4Gadget**

Quick to start

Simply pay the set-up fee, receive the device and b4gadget Configured iPod then start authenticating

Affordable

We have several monthly and yearly subscription plans to fit your business authentication needs

On-demand

On demand product options are off the charts these days. From Handbags to watches to sneakers, there is very little you can't put your own personalized style on.

Trust

After receiving the item, authenticators check it against the listing description, perform a multi-point inspection, and then ship it with a unique authentication card or tag.

“

Easily authenticate anywhere, anytime with our Mobile device and app.

B4GADGET
BEYOND MARKS

B4GADGET
BEYOND MARKS

The World's First and Only on-demand authentication solution for Luxury Handbags

HOW B4GADGET WORKS

- 1 place the device directly on the item
- 2 open the b4gadget configured ipad
- 3 our algorithms analyze the images to determine authenticity
- 4 Receive results in real-time.

Authenticity Guarantee

Sell with total confidence

Professional authentication

Every eligible item is physically verified by a team of experts with brand and category knowledge.

Verified returns

If the buyer returns your item, the authenticators inspect it before sending it back to you.

No cost to you

b4gadget covers all costs of the authentication process.

FROM LISTED TO SOLD

- **You list your item**
List your eligible item and a blue check mark will appear next to it.
- **You ship it**
Once a buyer purchases your item, it is shipped directly to a team of authenticators.
- **It's authenticated**
Once received, they check it against the listing description and perform a multi-point inspection. Once verified, an authentication card is generated with information about the item.
- **It's delivered**
Your item is delivered via expedited delivery with signature confirmation.
